

ARYAN SINGH

Software Engineer & Full-Stack Architect • Independent Film Director & Screenwriter

Location: Gorakhpur, UP, India | **Email:** aryansingh979211@gmail.com
Portfolio: aryan-cine-dev-portfolio.vercel.app | **Google Knowledge Panel:** share.google/rvj5TA6ZWVsg3A3GH
GitHub: github.com/aryansingh0777raghav | **LinkedIn:** linkedin.com/in/iamaryan07 | **Instagram:** [@iam_aryannnn07](https://instagram.com/iam_aryannnn07)

1. EXECUTIVE SUMMARY & IDENTITY

Aryan Singh is a dual-discipline Software Engineer and Independent Filmmaker based in Gorakhpur, India. He is the Founder & Lead Full-Stack Architect of **ArKTest Beta**, building crowdsourced QA marketplaces with FastAPI, PostgreSQL, and tokenized escrow economies. Simultaneously, as founder of **CineOn Studio 7**, he wrote, directed, scored, and edited the psychological drama short film 'The Night of Life: Before You Think About It', featured in national press and officially verified in Google's Knowledge Graph.

2. EDUCATION & ACADEMICS

Bachelor of Computer Applications (BCA)	<i>Sep 2024 – Dec 2027 (Pursuing)</i>
Institute of Technology & Management (ITM), Gorakhpur • CGPA: 7.49/10 Sem III SGPA: 7.96/10	<i>Gorakhpur, UP</i>
Relevant Coursework: Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Object-Oriented Programming (OOP), Operating Systems, Software Engineering, C/C++ Programming.	
Senior Secondary (Class XII) — 67% SR International Academy, Nathnagar	<i>Nathnagar, UP</i>
Secondary School (Class X) — 60% Surya International Academy, Khalilabad	<i>Khalilabad, UP</i>

3. TECHNICAL & CREATIVE COMPETENCY MATRIX

Core Programming Languages:	Python, C, C++, SQL, Java (Core/Basic), HTML
Backend & API Engineering:	FastAPI, RESTful APIs, PostgreSQL, SQLite, SQLAlchemy ORM Schema Design
Developer Tools & Platforms:	Git, GitHub, VS Code, Vercel, Postman, Chrome Extension APIs, IndexedDB
Modern AI & Engineering Workflows:	AI-Augmented Software Development, API Integration, Rapid Prototyping, Concurrency, PWA
Cinematic & Directorial Craft:	Screenwriting & Scriptwriting, Film Directing, Atmospheric Cinematography & Lighting, DaVinci Resolve Color Grading, Premiere Pro Editorial, Sound Design & Mixing

4. PROFESSIONAL WORK EXPERIENCE & ROLES

Founder & Lead Full-Stack Architect • ArKTest Beta
Jan 2026 – Present | Live: <https://arktest-beta.vercel.app/>

- Architected and deployed a full-stack crowdsourced QA testing marketplace connecting indie developers with verified beta testers.
- Engineered an automated tokenized escrow reward economy in FastAPI and PostgreSQL with pessimistic row-level locking (`with_for_update()`) to prevent financial race conditions during concurrent payouts.
- Implemented OWASP-compliant security: PBKDF2 SHA-256 password hashing, rate-limited OTP dispatches, JWT authorization, and CORS whitelisting.
- Developed multi-account Gmail SMTP pool with automated failover handling, single-user CSV exports, PWA capabilities, and 100% Pytest test coverage.

Film Director, Screenwriter & Editor • CineOn Studio 7

2026 – Present | YouTube: [@cineonstudio7](#)

- Wrote, directed, scored, and edited 'The Night of Life: Before You Think About It' — a psychological drama addressing youth mental health and existential resilience.
- Managed full post-production pipeline, sound design, color grading, and distribution across IMDb, TMDB, Letterboxd, and FilmFreeway.

Python Training Intern • Data Culture Technology

Jun 2025 – Aug 2025

- Completed intensive industry training in Core Python engineering, OOP architectures, database normalization, and automated script testing.
- Developed backend data parsing utilities and modular automation scripts with high execution efficiency.

5. CERTIFICATIONS, AWARDS & PRESS RECOGNITION

• Google Knowledge Panel Verified Entity — *Google Search (Aug 2026)*

Officially indexed and recognized in Google's Knowledge Graph as an independent filmmaker and director. Entity link: share.google/rvj5TA6ZWVsg3A3GH

• The Indian Blog Press Editorial Feature — *The Indian Blog (July 2026)*

Featured in exclusive editorial spotlight 'Aryan Singh: The Young Filmmaker Redefining Independent Storytelling' for directorial debut and auteur philosophy.

• Data Analytics Summer Training & Capstone — *Techpile Technology Pvt. Ltd. (July 2026)*

45-day training in Python analytics, SQL databases, and business intelligence. Awarded Grade A++ and Outstanding Performer Gold Medal (ID: TechpileST260123).

• Samsung Innovation Campus Big Data Credential — *Samsung Electronics (Nov 2025)*

Certified in Big Data analytics, dataset manipulation, data cleaning, and Python predictive modeling pipelines (Certificate ID: SIC08720).

6. MASTER PROJECTS ARCHIVE (A TO Z COMPLETE CATALOG)

Comprehensive catalog of all 18+ software systems, AI applications, web tools, games, and cinematic works authored by Aryan Singh:

1. SaveAlly. (Flagship Privacy Memory PWA)

Stack: React, TypeScript, Vite, Tailwind CSS, IndexedDB, PWA / Service Workers, Node.js, Groq AI | URL: <https://saveally.vercel.app>

Privacy-first personal memory for the internet with Android Web Share Target PWA, client-side Service Worker request interception, local-first IndexedDB persistence, a custom serverless OpenGraph metadata pipeline (zero 3rd-party CORS proxies), and BYOK Groq AI natural language search with dynamic multi-model discovery.

2. ArKTest Beta (Flagship Platform)

Stack: Python, FastAPI, PostgreSQL, SQLite, JS, Bootstrap 5, PWA, Vercel | URL: <https://arktest-beta.vercel.app/>

Crowdsourced QA marketplace connecting indie devs with verified beta testers. Features tokenized escrow rewards, pessimistic DB locking, CSV transaction exports, and multi-account SMTP failover.

2. ArVerse OS (Web Virtual OS)

Stack: React, Tailwind CSS, Vite, Framer Motion, Context API, AI | URL: <https://github.com/aryansingh0777raghav/ArVerse-OS>

Browser-based virtual OS simulator with window manager (draggable/resizable), AppSwitcher, customizable wallpapers, and ArKon Brain AI assistant with Ctrl+K spotlight search.

3. ArFt (AI Frontend Sandbox)

Stack: React, Monaco Code Editor, Groq API, IndexedDB, Filesystem API | URL: <https://github.com/aryansingh0777raghav/ArFt>

In-browser IDE with live multi-device preview, virtual filesystem (VFS), directory importing via showDirectoryPicker(), and AI website generation via Groq Llama-3.3-70b.

4. ArLip (AI Video Shorts Pipeline)

Stack: Python, FastAPI, React, Groq Whisper-v3, FFmpeg, yt-dlp, SQLite | URL: <https://github.com/aryansingh0777raghav/ArLip>

Automated pipeline that downloads YouTube videos, transcribes speech with word-level timestamps, detects viral hooks, center-crops to 9:16 vertical ratio, and burns animated subtitles.

5. ArCh (Aryan Search Engine)

Stack: Python, FastAPI, Electron.js, BeautifulSoup4, Vosk STT, Piper TTS | URL: <https://github.com/aryansingh0777raghav/ArCh>

Desktop Perplexity-style AI search engine that concurrently scrapes web pages to compile cited AI summaries with zero paid search API dependencies.

6. ArType (AI Android Assistant Overlay)

Stack: Kotlin, Jetpack Compose, Android Accessibility Service, Groq API | URL: <https://github.com/aryansingh0777raghav/ArType>

System-level floating AI bubble overlay for Android that provides multilingual voice typing (English, Hindi, Hinglish), smart replies, and context-aware text rewriting across any keyboard.

7. Solexplain AI (Web3 Transaction Parser)

Stack: TypeScript, Solana Web3.js, OpenAI API, React, Tailwind CSS | URL: <https://github.com/aryansingh0777raghav/solexplain-ai>

Decodes low-level Solana blockchain transactions into plain human-readable summaries, protecting users from malicious drains and phishing.

8. Personal AI Voice Assistant

Stack: Python, SpeechRecognition, Pyttsx3, OS / Subprocess | URL: [Offline Automation](#)

Voice-activated automation assistant that executes desktop commands, launches applications, takes screenshots, and monitors hardware stats via voice.

9. Certilink (Credential Verification Engine)

Stack: HTML5, CSS3, JavaScript ES6, LocalStorage API | URL: <https://aryansingh0777raghav.github.io/certilink/>

Digital credential repository for hosting, indexing, and validating verified academic and industry certifications with instant audit verification links and high-res preview modals.

10. ArTools YouTube Chrome Extension

Stack: JavaScript, Chrome Extension API Manifest V3, DOM Parser | URL:

<https://github.com/aryansingh0777raghav/ArTools-Chrome-Youtube-Extension>

Browser productivity extension enabling instant 1-click downloads of YouTube video streams, audio files, and HD video thumbnails directly from the native web player.

11. Chess Web Game

Stack: JavaScript, HTML5 Canvas, MiniMax Logic | URL: <https://aryansingh0777raghav.github.io/Chess-Game/>

Interactive 2-player browser chess game with complete legal move validation, turn switching, and board state rendering.

12. MySites Portal

Stack: JavaScript ES6, LocalStorage API, CSS3 | URL: <https://aryansingh0777raghav.github.io/MySites/>

Developer deployment saver that organizes live projects, stores metadata, and offers fast instantaneous search.

13. Portfolio Terminal

Stack: JavaScript, Bash Emulator, CSS3 | URL: <https://aryansingh0777raghav.github.io/Aryan-Interactive-portfolio/>

Interactive retro CLI terminal portfolio supporting authentic shell commands (help, about, projects, skills, clear).

14. Cine-Dev Showcase Portal

Stack: HTML5, CSS3, JavaScript ES6 | URL: <https://aryansingh0777raghav.github.io/Aryan-Singh-Cine-Portfolio/>

Dual-theme split interface engineered with vanilla JavaScript ES6 and semantic CSS for multimedia showcases.

15. 3D Concept Portfolio

Stack: React, Three.js, Canvas, Tailwind CSS | URL: <https://aryansingh0777raghav.github.io/3D-Concept-Portfolio-project/>

Interactive 3D concept portfolio showcasing creative interactive web capabilities and spatial canvas rendering.

16. Scrollytelling Portfolio

Stack: React, Framer Motion, Tailwind CSS, Lenis Scroll | URL:

<https://github.com/aryansingh0777raghav/Scrollytelling-Portfolio-of-Aryan-Singh>

Cinematic scrollytelling web experience featuring smooth hardware-accelerated scrolling and animated typography.

17. Personal Portfolio Minimal V3

Stack: Vanilla JavaScript, CSS3, HTML5 | URL: <https://aryansingh0777raghav.github.io/Personal-Portfolio-MinimalV3/>

Ultra-fast, clean personal portfolio with a sharp focus on simplicity, typography, and lightweight performance.

18. Personal Portfolio NetUI

Stack: React, Tailwind CSS, Glassmorphic UI | URL: <https://aryansingh0777raghav.github.io/Personal-Portfolio-NetUI/>

Clean personal portfolio built with NetUI showcasing translucent layered cards and dynamic lighting.

19. The Night of Life: Before You Think About It

Stack: 4K DCI, 24fps Narrative Cinema • CineOn Studio 7 | URL: <https://youtu.be/tEvYeAHmCHq>

Directorial debut short film exploring existential conflict, student academic despair, and life-changing decisions. Written, directed, scored, and edited by Aryan Singh. Indexed on IMDb (tt39846631), TMDb, Letterboxd, and FilmFreeway.

7. VERIFIED DIGITAL ENTITIES & OFFICIAL WEB REGISTRIES
